Prior Art Citation

1. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ito et al. (5,475,666), Nagano (7,053,919) and Takeda (2003/0043714), all discloses an optical disk apparatus having the ability of performing optimal power control of the optical disk drive.

Reasons For Allowance

2. The following is an Examiner's Statement of Reasons for Allowance:

Re Claims 1-9

The prior art of record alone or in combination does not teach or suggest the method of performing optimal power control of an optical disk drive based on beta-parameter for determining whether a default power is equal to an optimal write-in power for writing data onto an optical disk having the combination of steps with their recited process, and taken the claims as a whole in combination with:

setting a first level and a second level, wherein the first level is higher than the second level; and
processing an evaluation step according to a portion of the read result

whose level is higher than the first level and lower than the second level for accumulating the beta-parameter.

Re Claims 10-19

The prior art of record alone or in combination does not teach or suggest the optical disk drive having the combination of elements with their recited function, along with having:

an evaluation module electrically connected to the access circuit comprising:

a first slicer for detecting a portion of the read result higher than a first level; and a second slicer for detecting a portion of the read result lower than a second level;

wherein the first level is higher than the second level; and the evaluation module accumulates a beta-parameter according to the detected results of the first slicer and the second slicer; and

a control module electrically connected to the evaluation module for controlling operation of the optical disk drive, the control module capable of determining if the default write-in power is the preferred power according to the beta-parameter.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
